

Washington Park High School

Dear Austin Healey Club Members,

Thank you so much for your generous donation to the Washington Park High School Automotive Program. Your donation will help us prepare our students for the many upcoming State Student Auto Skills Contests.

It was incredible to see so many Austin Healey's at one time. The students and instructor were impressed with both the vehicles and the history behind each of them. This was a great experience for the students to meet men that are as excited about automobiles as the students are about theirs.

I hope the club members had as much fun as we did. Thank you again for your help preparing our students and sharing your love of automobiles with a whole new generation.

Best Regards,

Dave Dixon
AYES Automotive Instructor
